Save Wallbridge Adderwell Path petition As at January 31 2021

1,513 local individuals have signed

This list includes only people with a local address or a local connection (e.g. past or future resident of Frome)

A further 319 signatures were received from elsewhere but are not included in this list.

The text of the petition is:

The longstanding and much-loved path beside the river between Wallbridge and Adderwell in Frome has been closed (6 May) by the new owner, an out-of-town property developer

The Local and Neighbourhood plans should protect the river corridor including this path, but the developer is ignoring this. The Friends of the River Frome has submitted (June 2018) a claim to Somerset County Council for this path to be designated as a Right of Way. But we also need your support.

If you agree that continued public access to this wonderful stretch of river is important, please sign this petition and share it with like-minded friends around Frome.
